Preface

The main motivation for this series is that details on the Mythic Europe setting are distributed over a large number of books. This makes it hard to answer some questions, such as "Who are the Tremere archmages?", "How many Tremere hold their own sigil?", or "Where are the Tremere House covenants?".

Of course, any troupe can answer any of these questions any way they want. Ars Magica books make a point of detailing some of the more important aspects and leaving the rest for the troupe to fill in. This makes the setting very flexible and easy to adapt to a variety of tastes. Still, I was curious to figure out how all the puzzle pieces might fit together, what a complete picture might look like.

Approach I compiled information from different books from the 3rd, 4th and 5th edition of Ars Magica. Where conflicts arose, the newer edition took precedence.

Then, I made the decision to try and fill in the blanks, using as basis mainly the excellent novel Shadow & Flame by Jason Tondro[1] for the Iberian Tribunal and the Ascendency of the Warp Saga set in the Loch Leglean Tribunal by Andrew Breese[2]. In some cases, I added my own deductions. I aspire to always cite the sources where information came from and give reasons for the decisions I took, so readers can judge for themselves what weight to give them.

The result is not intended to provide a definitive view of the House. It is a compilation that points to the places where information can be found, complemented by offers of how that information could fit together. As always, every troupe is invited to adapt it to fit their saga.

Notes In a book about House Tremere, it would be redundant to mention for all characters that they are from House Tremere. Tremere magi are therefore identified by their covenant (or oppidum, in the case of Transylvania) of residence. The House is only mentioned for non-Tremere magi.

This document is not supposed to be read like a book; therefore some information will be replicated in several places to be readily available. The redundancy is intentional.

Acknowledgements This work would not have been possible without the decision to put large portions of the Ars Magica content under an open license. I would like to thank Jason Tondro and Andrew Breese for their permission to use their ideas here.

1. Structure of House Tremere

1.1. Demography

House Tremere currently consists of 94 magi,[3] 41 of whom reside in the Transylvanian Tribunal. The other 53 are not distributed evenly across the other Tribunals: While there are 9 Tremere in the Rhine Tribunal, there are only 2 in the Novgorod and none in the Greater Alps Tribunal, both of which are presumably supported out of Transylvania. Only one Tremere resides in Loch Leglean.[4]

Tremere archmages Ten Tremere have achieved the rank of archmage.[5]

- Archimaga Legata Monica Ierne of Coeris
- Archimagus Valerius of Coeris, the current Secutor[6]
- Archimaga Erichtho of Malva, Exarch of Iberia and Provence[7]
- Archimagus Stentorius of Fengheld, Exarch of the Rhine
- Archimagus Garvil of Potestas, Exarch of Rome[8]
- Archimagus Goliard of Blackthorne, Exarch of the British Isles and Normandy[9]
- Archimagus Pentaris of Arch Muein, Tribune of the Loch Leglean Tribunal
- Archimagus Umno of Coeris, Primus Emeritus[10]
- Archimagus Archimandros of Coeris, Exarch of Transylvania[11]
- Archimagus Albertus of Lycaneon, Praeco of the Transylvanian Tribunal

[3] HoH:TL p. 110 speaks of 92 magi, but that number was difficult to reconcile with the descriptions found in the Tribunals. Including the covenants of Malva in Iberia and Arch-Muein in Loch Leglean, there are 51 known magi outside of Transylvania. However, one of the House covenants was still missing. I placed it in the Levant along with two new magi, bringing the Tribunal to a reasonable number of Tremere. Two known Tremere, Ingrid [Ant p. 74] and Decarius [TTT p. 80] listed in section 8, are not included in that number.

[4] No Tremere are mentioned in the books for the Loch Leglean Tribunal, so I decided to add the archmage Pentaris from the background of the *Ascendency of the Warp* Saga there.

[5] "Of the 1200 or so magi in the Order of Hermes, fewer than 80 have achieved this lofty status. There are a disproportionate number from Houses Tremere, Flambeau, and Tytalus" [GotF p. 24] combined with the remark that Radegast Ex Miscellanea of Roznov is "possibly the only archmage of his House" [GotF p. 109] means that 9 Tremere archmages would be above average, and 10 could put them in the top three Houses.

[6] HoH:TL p. 124 does not give a residence; I placed him in Coeris.

Table 1: Magi and covenants per Tribunal (Mava is from *Shadow & Flame*, Arch-Muein from the *Ascendency of the Warp* saga. Tolerantia and Castellum Orientalis are new covenants invented by the author.)

Tremere Quaesitors Four Tremere hold the title of Quaesitor.[12]

- Perius of Lycaneon, the pater of the late Anaxagoras of Triamore, who is the pater of Daria la Grise of Triamore,[13] is the Tremere member of the Magvillus Council.
- Publius of Lycaneon[14]
- Davan of Potestas[15]
- Gaius Gallus of Tolerantia[16]

[12]From HoH:TL p. 36, we know that there are 41 non-Guernicus Quaesitors. House Tremere would make sure to have an above-average number of Quaesitores, so at least four. My assumption is that two of those are in the Transylvanian tribunal, probably an experienced investigator and a young magus, to balance the Guernicus Quaesitores of Seuthopolis. A Tremere Quaesitor is not mentioned anywhere. The aedile of Seuthopolis would be a natural choice, but she's a very young lictor (hoplite) specialized in Rego Corpus.[AtD p. 56] Catullus of Coeris is described as a senior member of Coeris, but close to final twilight.[BaS p. 104] I therefore selected Perius as a powerful old magus and assigned him a young magus he is training. Then I selected two magi from other tribunals about whom nothing is known and made them Quaesitores.

1.2. House Leadership

The core of House Tremere's policy-creating body is formed by 13 mages at Coeris.[17]

- Prima Poena
- Legata Archimaga Monica Ierne[18]
- Horatius, secretary of operations
- Juturnus, aide to Horatius
- Janus, secretary for contingencies
- Angiola, chief aide to Janus
- Tatiana, secretary for emergencies
- Isaac of Merinita, advisor of Tatiana
- Dominic of Tytalus, Aedile of Coeris
- Umno, Primus Emeritus[19]
- Archimagus Archimandros of Coeris, Exarch of Transylvania[20]
- Archimagus Valerius, the current Secutor[21]
- Catullus[22]

Leadership of the Transylvanian Tribunal

- Praeco: Archimagus Albertus of Lycaneon[23]
- Chief Quaesitor: Benilda of Guernicus[24]
- Senior Lictor: Saturnino of Criamon[25]
- Chief Mercere: Accursius Adiran of Mercere[26]

[17] AtD p.26
[18] The Legatus is the field-leader of the House in war and the Primus's heir. [HoH:TL p. 122]
[19] HoH:TL p. 122
[20] The name of the exarch is not mentioned in the books; his name and placing him in Coeris was the author's idea.
[21] The residence of Valerius (only mentioned in HoH:TL p.124) is unknown. Placing him in Coeris was the author's idea.
[22] is described as a senior member of Coeris in Blood & Sand, p. 104

[25] AtD pp. 54f
[26] AtD p. 76

Exarchs The exarchs are senior Tremere placed in command of the House's operations in one or more Tribunals. There are currently six exarchates.[27]

- Rhine Tribunal – Stentorius of Fengheld
- Roman Tribunal – Garvil of Potestas[28] (After the legate, the exarch of Rome is second in the line of succession to the primus.[29])
- Theban and Levant Tribunals – Boustaphan of Gigas[30]
- The Tribunals of Provence and Iberia – Erichtho of Malva[31]
- Stonehenge, Hibernia, Loch Leglean, and Normandy – Goliard of Blackthorne[32]
- Transylvania, Novgorod, and the Greater Alps – Archimandros of Coeris[33] (This exarch's role includes traveling as a spokesperson for the Prima, since the exarchate includes tribunals where the House is all but absent.[34])

Tribunes Most exarchates cover several Tribunals. In those Tribunals in which the exarch does not reside, he appoints a local senior Tremere to lead the House in the Tribunal.[35] There are only five tribunes, as no Tremere reside in the Greater Alps tribunal, and none of the Tremere residing in Hibernia hold their own sigil.

- Protendus of Aedes Mercurii, Tribune of the Provençal Tribunal[36]
- Archimagus Pentaris of Arch Muein, Tribune of the Loch Leglean Tribunal[37]
- Rotgiers de Gerberoy of Montverte, Tribune of the Normandy Tribunal[38]
- Xerxes of Urania, Tribune of the Levant Tribunal[39]
- Frania Popovich of Leczyca, Tribune of the Novgorod Tribunal[40]

[27] HoH:TL p. 121
[28] Garvil is identified at the leader of Potestas, so it is inferred that he is the exarch.
[29] HoH:TL p. 122
[30] TSE p. 65 identifies him as the senior Tremere in the Tribunal and the Tribune of Thebes, although he must be the exarch since HoH:TL p. 121 says that "in time, the Levant may become a unique exarchate, as its exarch has granted the tribune broad powers beyond his role as advocate."
[31] Erichtho is named as the exarch of Iberia and Provence in Jason Tondro's novel "Shadow & Flame" on p. 35. The book is not canon, but it nicely fills an empty spot.
[32] Goliard is the senior Tremere of the Stonehenge Tribunal and thus assumed to be the exarch.
[33] The name of the exarch is mentioned nowhere in the books, so it was invented by the author.
[34] HoH:TL p. 121
[35] HoH:TL p. 118
[36] "Protendus of Tremere is the most senior magus of House Tremere in the Tribunal." [FaF p. 85]
[37] He is the only Tremere in this Tribunal.
[38] "Rotgiers holds the sigils of the majority of the Tribunal's Tremere magi" [LaL p. 61]
[39] There are only three Tremere in the Levant Tribunal. David of the True Cross is a young magus, while Amber of Aedes Veritatis is described as independent and having a bad standing with the senior members of the House.
[40] There are only two Tremere in the Novgorod Tribunal and Frania Popovich is the senior one.

Conciliarii All Tremere who possess their own sigils meet every ten year at the Decennials. A member of this body is called a *conciliarius*.[41] There are currently 23 conciliarii. At the Decennial the conciliarii duel for the right to assess the competency of the primus. The victor, called the secutor, need not challenge the Primus to certamen.[42] The Archimagus Valerius is the current Secutor.[43]

It is assumed that all archmages, exarchs, and tribunes hold their own sigils. There is no conciliarius in Hibernia or in the Greater Alps Tribunal.

- Prima Poena of House Tremere
- Archimaga Legata Monica Ierne of Coeris
- Secretary Horatius of Coeris
- Secretary Janus of Coeris[44]
- Archimagus Valerius of Coeris, the current Secutor[45]
- Archimaga Erichtho of Malva, Exarch of Iberia and Provence[46]
- Protendus of Aedes Mercurii, Tribune of the Provençal Tribunal
- Archimagus Stentorius of Fengheld, Exarch of the Rhine
- Magister Severicus of Roznov, Princeps of Roznov Fort
- Archimagus Garvil of Potestas, Exarch of Rome[47]
- Archimagus Goliard of Blackthorne, Exarch of the British Isles and Normandy[48]
- Archimagus Pentaris of Arch Muein, Tribune of the Loch Leglean Tribunal
- Rotgiers de Gerberoy of Montverte, Tribune of the Normandy Tribunal
- Boustaphan of Gigas, Exarch of Thebes and the Levant
- Xerxes of Urania, Tribune of the Levant Tribunal
- Frania Popovich of Leczyca, Tribune of the Novgorod Tribunal
- Ruprecht de Solange of Leczyca

- Archimagus Umno of Coeris, Primus Emeritus[49]
- Archimagus Archimandros of Coeris, Exarch of Transylvania[50]
- Nestor, Curator of Tablinum
- Pahniro Adiran, Aedile of Old Histria
- Archimagus Albertus of Lycaneon, Praeco of the Transylvanian Tribunal
- Perius of Lycaneon, Quaesitor of House Tremere[51]
- Leona of Kezdö Valasz[52]

[50]The name was invented by the author.
[51]Making him a Quaesitor and placing him in Lycaneon was the author's idea.
[52]The fact that she holds her own sigil is inferred from her age of 106.

1.3. House Covenants

Coeris is the storehouse where the magi of Tremere keep much of their vast treasury to be expended in future conflicts. It is also their mustering point of preference in times of Europe-wide conflict.[53]

Large Tremere House covenants are found in the Tribunals of Transylvania (Coeris), Iberia (Malva[54]), Rome (Potestas), Stonehenge (Blackthorn), and Thebes (Gigas).[55]

Small House covenants are found in five of the other Tribunals. The House covenants serve as storage depots, research facilities and fortified rallying points.[56]

It seems clear that there are no House covenants in the Greater Alps Tribunal (where no Tremere live) and the Hibernian Tribunal (where no senior magi live). The small House covenants are therefore found in the Provençal (Tolerantia[57]), Rhine (Roznov Fort), Loch Leglean (Arch-Muein[58]), Normandy (Montverte), and either Levant or Novgorod Tribunals. I went for the Levant Tribunal, as House Tremere is described as one of the more common Houses there,[59] and named the covenant *Castellum Orientalis*.

Experienced magi, each usually accompanied by a young assistant, live in many of the multiple-house covenants.[60]

2. Exarchate Iberia and Provence

Important magi:

- **Exarch:** Archimaga Erichtho of Malva
- Protendus of Aedes Mercurii, Tribune of the Provençal Tribunal

Important covenants:

- **Malva**,[61] Iberia (Large House covenant)
- Tolerantia,[62] Provence (Small House covenant)

[53] HoH:TL p. 115

[54] The large House covenant in Iberia is not named in the books. This void is filled with the covenant of Malva from Shadow & Flame.

[55] HoH:TL p. 115

[56] HoH:TL p. 115

[57] None of the covenants with Tremere members from the canon can be considered House covenants. It was therefore necessary to add a new covenant. Since Protendus hols 6 sigils, but only 4 Tremere are accounted for, it was easy to assign the missing two to a new covenant, which I called Tolerantia.

[58] LotN mentions Tremere magi only in the context of the War Against Damhan-allaidh and the Schism War. It seemed reasonable to add the covenant from the Ascendency of the Warp Saga.

[59] "Currently the Tribunal of the Levant consists of 59 magi [...]. Magi of Houses Flambeau, Verditius, Criamon and Jerbiton are most commonly encountered, followed by members of Houses Tremere and Tytalus" [BaS p. 99]

[60] HoH:TL p. 115

[61] from Jason Tondro's novel Shadow & Flame

[62] The name of this covenant is an invention of the author.

2.1. Iberian Tribunal

There are six Tremere magi in the Iberian Tribunal.[63]
Members of Malva:

- Archimaga **Erichtho**, Princeps of Malva and exarch of Iberia and Provence
- Antaîos (architect), senior magus
- Panoptes, senior magus
- Tythibeus, senior magus
- Cadmus filius Panoptes, junior magus
- Crystalla filia Antaîos, junior maga

2.2. Provençal Tribunal

There are six Tremere magi in the Provençal Tribunal.[64]

- Ostal des Exiles: Garsenda of Lariander (35, Imaginem specialist and Knight of the Green Stone)
- Bellaquin: Artemis (49, Corpus specialist)
- Aedes Mercurii: **Protendus** (Tribune, holds six sigils, necromancer and member of the Vexillation of the Golden Thread)
- Jardin: Ahenobarbus filius of Janus of Coeris (65, Rego specialist)[65]
- Tolerantia: Versus (∼26, filius of Daria la Grise of Triamore)[66]
- Tolerantia: Gaius Gallus[67]

[63] As there is little information on this Tribunal, the covenant of Malva and its inhabitants are taken from Jason Tondro's novel "Shadow & Flame".
[64] As Protendus holds six sigils, there should be at least six Tremere in the Tribunal.
[65] TtA pp.47f
[66] last heard from in Iberia (Triamore p. 53), but was placed here to keep the total number of Tremere magi lower. He is described as eight or nine years past gauntlet, but this does not match with Daria's age. I set him to be one year past gauntlet.
[67] Nothing is known about this magus, his name and making him Quaesitor was the author's idea.

3. Exarchate of the Rhine

Important magi:

- **Exarch:** Archimagus Stentorius of Fengheld
- Magister Severicus of Roznov, conciliarius

Important covenants:

- Roznov Fort (Small House covenant)

3.1. Rhine Tribunal

There are nine Tremere magi in the Rhine Tribunal.

- Fengheld: Archimage **Stentorius**, princeps of Fengheld (Eichengilde) holds nine sigils.[68]
- Fengheld: Magister Clemens filius of Stentorius (Eichengilde, skilled magus)
- Triamore: Magistra Daria la Grise filia of Anaxagoras (72[69]), princeps of Triamore (co-leader of Apfelgilde, experienced maga)
- Triamore: Sicero filius of Goliard (Eichengilde, young magus)
- Collem Leonis Julia filia of Renardus (Apfelgilde, young maga)
- Roznov: Conciliarius Magister **Severicus** (Eichengilde) holds five sigils
- Roznov: Victor filius of Severicus (Eichengilde, young magus)
- Roznov: Flavia filia of Severicus (Eichengilde, young maga)
- Waddenzee: Hygwald Veritas filius of Goliard (Eichengilde, skilled magus)

4. Exarchate of Rome

Important magi:

- **Exarch:** Archimagus Garvil of Potestas[70]

Important covenants:

- **Potestas** (Large House covenant)

[68] In the Rhine Tribunal, a master holds two sigils, an archmage three. This is why the nine magi hold fourteen sigils.

[69] GotF p. 47 gives her age as 67, but according to GotF p. 24, "It is very rare that magi achieve the status of master in less than twenty years since their Gauntlet, with thirty or forty years being the norm." Daria was 25 at her gauntlet, so it's very unrealistic for her to be a master before the age of 40.

[70] I made him an archmage because as an exarch, he seems a good candidate for archmagehood.

4.1. Roman Tribunal

There are seven Tremere magi in the Roman Tribunal.

- Potestas: Archimagus Garvil
- Potestas: Davan, one of the Tremere Quaesitores
- Potestas: Karantia
- Potestas: Tiana
- Potestas: Tolas
- Rellantali: Evoco (∼52)
- Rellantali: Marius

5. Exarchate of the British Isles and Normandy

Important magi:

- **Exarch:** Archimaga Goliard filia of Flumen of Blackthorne
- Rotgiers de Gerberoy of Montverte, Tribune of the Normandy Tribunal
- Archimagus Pentaris of Arch-Muein, Tribune of the Loch Leglean Tribunal

Important covenants:

- **Blackthorn**, Stonehenge (Large House covenant)
- Arch-Muein, Loch Leglean (Small House covenant)
- Montverte, Normandy (Small House covenant)

5.1. Stonehenge Tribunal

There are five Tremere magi in the Stonehenge Tribunal.

- Blackthorn: **Goliard** filia of Flumen (∼90), holds five sigils
- Blackthorn: Fornax filia of Goliard (mature maga, Rego Mentem specialist)
- Blackthorn: Prelum filia of Goliard (∼34, Vim specialist)
- Libellus: Justin (young magus)
- Nigrasaxa: Caltis (young magus)

5.2. Hibernian Tribunal

There are three Tremere magi in the Hibernian Tribunal.

- Praesis: Báetáin (60) - His parens retired to Coeris some years ago, taking Báetáin's sigil with him.
- Ashenrise: Dorján (59) - born and trained in Transylvania; sigil is held by magus in Transylvania
- Ashenrise: Konstanczia (65) - born and trained in Transylvania; sigil is held by magus in Transylvania

5.3. Loch Leglean Tribunal

There is only a single Tremere magus in the Loch Leglean Tribunal.

- Arch-Muein: Archimagus **Pentaris**

5.4. Normandy Tribunal

There are three Tremere magi in the Normandy Tribunal.

- Montverte: **Rotgiers de Gerberoy** (78) - holds three sigils,[71] Rego specialist
- Montverte: Runild (64)
- The Northern Seas: Tibor Milos (25)

6. Exarchate Thebes and the Levant

Important magi:

- **Exarch:** Boustaphan of Gigas
- Xerxes of Urania, Tribune of the Levant Tribunal

Important covenants:

- **Gigas**, Thebes (Large House covenant)
- Castellum Orientalis, Levant (Small House covenant)[72]

[71] Holds the sigils of the majority of the tribunal's Tremere magi, which is not many since his House has a weak presence here.

[72] The covenant and its name are an invention of the author.

6.1. Theban Tribunal

There are six Tremere magi in the Theban Tribunal.

Gigas (Tremere-only) usually has six members; most are filii of Boustaphan:

- Exarch **Boustaphan** of Tremere (114), holds six sigils
- Monorchis filius of Boustaphan (58), Ignem specialist
- Allectores filius of Boustaphan (46), diplomat
- a third filius of Boustaphan
- Virgil, pater of David of The True Cross (Levant)[73]
- Helvius Pertinax[74], specialized in ice magic

6.2. Levant Tribunal

There are five Tremere magi in the Levant Tribunal.

- Aedes Veritatis: Amber, filia of Catullus of Coeris
- Urania: Xerxes, filius of Alix
- The True Cross: David (young), filius of Virgil of Gigas
- Castellum Orientalis: an unnamed Tremere[75]
- Castellum Orientalis: an unnamed Tremere[75]

7. Exarchate Transylvania

Important magi:

- **Exarch:** Archimagus Archimandros of Coeris[76]
- Archimagus Albertus of Lycaneon, Praeco of the Transylvanian Tribunal
- Frania Popovich, Tribune of the Novgorod Tribunal

Important oppida:

- **Coeris**, Transylvania (Large House covenant)

[73] Was placed in Giags by the author.

[74] From Covenants p. 124; was placed in Gigas because "the sancta of the magi mainly are underground" [TSE p. 65]

[75] Not mentioned in any book

[76] One could think that the Praeco of the Transylvanian Tribunal is also the exarch, but HoH:TL suggests that the Tribunal structure and the House structure are separate. In addition, the exarch travels a lot through the neighboring tribunals, which in the author's opinion suggests that they are different. "This exarch's role includes traveling as a spokeswoman for the Prima, since her exarchate includes tribunals where the House is either ubiquitously powerful or all but absent." [HoH:TL p.121]

7.1. Transylvanian Tribunal

There are 41 Tremere magi in the Transylvanian Tribunal.[77]
Coeris: 20 magi, 18 Tremere

- Prima Poena (86)
- Angiola (25) Assessor, Gentle Gift, aide to Janus
- Archimagus Dominic of Tytalus, Aedile of Coeris (90)
- Secretary Horatius (61)
- Secretary Janus (91)
- Isaac of Merenita (40)
- Juturnus (45): Assessor, aide to Horatius
- Secretary Tatiana (85)
- Archimaga Legata Monica Ierne (90): Combat mage
- Archimagus Umno, the previous Primus[78]
- Catullus, pater of Amber the Golden[79]
- Archimagus Archimandros, Exarch of Transylvania[80]
- Archimagus Valerius, the current secutor
- Renardus, pater of Julia of Collem Leonis[81]
- 1-year Tremere[81]
- 1-year Tremere[81]
- 1-year Tremere[81]
- 1-year Tremere[81]
- Anica[82]

[77] HoH:TL p. 116

[79] Blood & Sand p. 104
[80] Name invented by the author
[81] Five magi are in Coeris for a year, either to acculturate their apprentices or as part of a rotation. [AtD p. 26]
[82] Two of the three magi from TtA p. 98. Placed here by the author: "Two more are young Tremere magi being “seasoned,” performing missions for the House while awaiting more permanent placement in a covenant in another Tribunal." [AtD p. 26]

- Petre[82]

Laniena:

- Lexander (63)

Evredika:

- Yekaterina (48)

Seuthopolis:

- Terencia (21), lictor and aedile of Seuthopolis
- Aguilon, filius of Daria la Grise of Triamore (∼42)[83]
- An unnamed Tremere lictor

Tablinum:

- Nestor (93)
- Theodora (58)
- Theodore (58)

Old Histria:

- Pahniro Adiran (110), Aedile of Old Histria, hoplite
- Placido Adiran (32), Aedile of Shrouded Bay
- Merit in the Venice chapterhouse
- Octavian[84], in the Venice chapterhouse

Lycaneon:

- Archimagus Albertus (58), Praeco of the Transylvanian Tribunal
- Clement (45), a necromancer
- Phillip (32)

[83]Triamore p. 52 places him in the covenant of Valerius in the Rhine Tribunal, but there are already many magi there, so I decided to move him to Transylvania. He is also described as being 25 year past his gauntlet, but this does not match with Daria's age. I placed him at 17 year past his gauntlet, so there's just enough time to train her second apprentice, Versus.

[84]Third magus from TtA p. 98 (Placed here by the author. The other two were placed in Coeris). Assumed to be the chess player from LoM p. 46

- Perius (>150), pater of the late Anaxagoras of Triamore[85], the senior Tremere Quaesitor of the Tribunal and member of the Magvillus Council
- Publius[86], the second Tremere Quaesitor of the Tribunal

Scholomance:
